Zoom breakout rooms

*To participate in Zoom Breakout Rooms, make sure that you are using the latest Zoom software. Download the latest update from this*

*link: <https://zoom.us/support/download>*

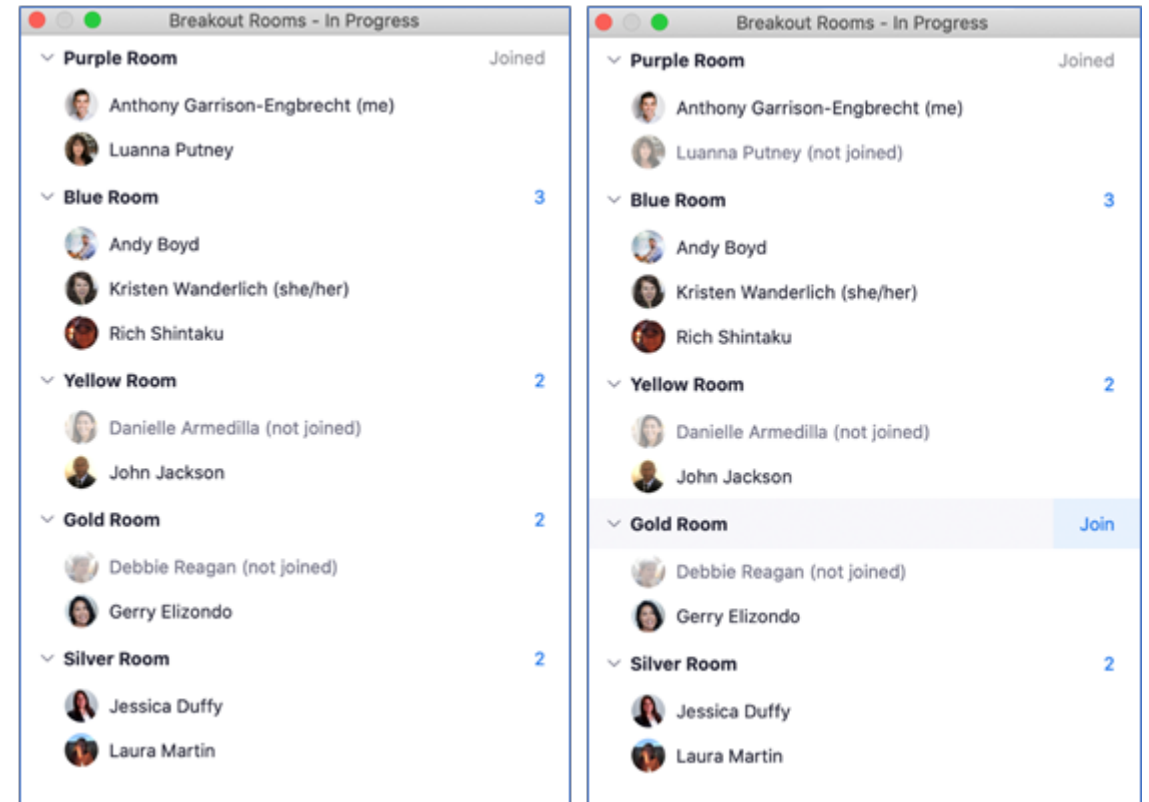

*This will allow you to see the “Breakout Rooms” icon/option. **If your Zoom software is not updated to the latest version, you will not be able to join Breakout Rooms.***

## Zoom Troubleshooting for Breakout Rooms

**If you are using a Mac computer**, when you click the “Breakout Rooms” icon/option and the Breakout Rooms window appears, you will need to **hover over the number of people in that room for the “Join” button to show**. See the example below. The user needed to hover over the “2” to be able to see the “Join” button to join the “Gold Room”.

To **leave a breakout room and return to the main lobby**, while in the breakout room, click the “Leave Room” button on the bottom right, and choose to “Leave the Breakout Room” so that you can return to the main session.

If you ever need to **leave the breakout room**, just exit the room. You can optionally leave a short message in the chat prior to your exit!
